Subject: Random Seed of BoxGenerator
Posted by donghee on Sat, 30 Jan 2010 13:54:30 GMT

Dear Collegues,

I'm trying to produce some event with box generator.
I want to produce two output files from one macro, which have different events.

How can I set some random seed for box generator.
For example, each output files have to have 100 events.
output_mc_sim_1.root
output_mc_sim_2.root

Is there some option?

Thanks,
Donghee
