Hi Radek,

Quote:I have also seen that in the meantime the fDetectorType enum grew to contain information about the detector hit type, like point, digi, cluster or hit. I do not know if that was the goal from the beginning, ...

here is what was discussed and decided:

<http://panda-wiki.gsi.de/cgi-bin/view/Computing/Minutes05Aug2008>

see "detector type"

<http://panda-wiki.gsi.de/cgi-bin/view/Computing/PandaRootTrackModel>

see "Flags".

cheers, Soeren
