Subject: Stt external library glpk Posted by Ralf Kliemt on Thu, 04 Feb 2010 10:40:08 GMT

Hi,

Running on my Mac I noticed in pandaroot/stt/CMakeLists.txt:72 that libglpk.so is loaded. However the Mac compiles this external package into libglpk.dylib causing stt to not compile. Is there an approach in cmake to load either library type?

Regards, Ralf.
