Hello,

There is the possibility to set the VisLevel to 10 by default:

In FairEventManager.cxx:54 the constructor TEveGeoTopNode(TGeoManager* manager, TGeoNode* node, Int_t visopt=1, Int_t vislvl=3, Int_t maxvisnds=10000); is called without providing a value for vislvl.

Changing this will influencd CBM. Is a higher VisLevel a problem there, Mohammad?

Just give me green light and I commit it.

Regards, Ralf.
