Done,
but now the src folder has disappeared:

```
Scanning dependencies of target Stt
[ 23%] Building CXX object stt/CMakeFiles/Stt.dir/PndSttTrackFinderReal.o
[ 23%] Building CXX object stt/CMakeFiles/Stt.dir/PndSttDict.o
make[2]: *** No rule to make target `/home/spataro/jan10/basics/glpk/src/.libs/libglpk.so',
needed by `lib/libStt.so.0.0.0'. Stop.
make[1]: *** [stt/CMakeFiles/Stt.dir/all] Error 2
make: *** [all] Error 2
```

There was the CMakeList wrong. I have fixed it.
