Subject: Re: fDetectorId discussion
Posted by Anonymous Poster on Tue, 09 Mar 2010 19:13:23 GMT

Hi guys,

I cant be there at the discussion. But anyways, I wanted to state my opinion on the topic once more:

I think the fDetectorId should be a bit mask, which contains info about which detector system is used (Gem, Stt, ...) and also which geometrical unit is hit (MVD wafer, Straw tube, ...). Things like channel Id seem weird, since we make clusters in may detectors (Gem, MVD, ...).

Cheers, Christian
