Elisa Fioravanti wrote on Wed, 17 March 2010 09:30Hello,

I can confirm that I have already updated the fairsoft part (following the instruction for the glpk post in the forum).

The problem seems to be in the PndSttTrackFinderReal.

Thanks,
Elisa

Now the problem seems to be fixed, at least for the Scientific Linux version 4.8 machine (Radek reports it is still not working on his Mac).

Please update repository the stt directory and test

Gianluigi
