Quote:

1) For example I do the following:

svn commit media_pnd.geo

and got error:

svn: Server sent unexpected return value (403 Forbidden) in response to CHECKOUT request for '/fairroot!/svn/ver/8024/pandaroot/trunk/geometry/media_pnd.geo'

svn: Your commit message was left in a temporary file:

svn: '/home/freez/fairsoft/pandaroot/trunk/svn-commit.tmp'

It looks like you don't have write permission to the /trunk/geometry

So I think you should ask Mohammad for it.
