Quote:
1) For example I do the following:
svn commit media_pnd.geo
and got error:
svn: Server sent unexpected return value (403 Forbidden) in response to CHECKOUT request
for '/fairroot/!svn/ver/8024/pandaroot/trunk/geometry/media_pnd.geo'
svn: Your commit message was left in a temporary file:
svn: '/home/freez/fairsoft/pandaroot/trunk/svn-commit.tmp'

It looks like you don't have write permission to the /trunk/geometry
So I think you should ask Mohammad for it.
