Dear Go4 users,

we will offer two workshops about Go4 usage on

 Thursday, 28.October 2004, 14:00h and
 Friday, 29. October 2004, 9:00h

in the DVEE Schulungsraum
 (school room behind the computercenter terminal room).

The workshops are intended for people already using Go4.
The program will be flexible (teach on demand).

Both workshop days are meant as alternative dates,
i.e. we will repeat the same basic topics. However, the contents
may differ in detail, depending on the users' requests.

Preliminary program:
 Introduction of Go4 (v2.8) (presentation);
 GUI basic operation;
 Fitter and Fit panel;
 Starting analysis from GUI;
 On-line histogramming and monitoring;
 Go4 pictures;
 Parameter objects;
 Processing Go4 files from CINT;
 Go4 User GUI;
 Discussion, new requirements, further development;

See

http://www-linux.gsi.de/~go4/workshop/ws1.php

for more details.

Best regards,

 the Go4 developer team
