hello,

When I run runLumiSim.C, FAIRGeom was missing in lumisim.root, which gave error while running runLumiDrawGeo.C.

I read some discussion on similar topic at link

[http://forum.gsi.de/index.php?t=msg&th=2582&start=0&rid=93&am](http://forum.gsi.de/index.php?t=msg&th=2582&start=0&rid=93&amp;S=8a415fbc32c8b125305ad77d67d51b4e)  
[p;S=8a415fbc32c8b125305ad77d67d51b4e](http://forum.gsi.de/index.php?t=msg&th=2582&start=0&rid=93&amp;S=8a415fbc32c8b125305ad77d67d51b4e)  
but I couldn't understand the proper solution.

What should I do to fix the error? Please help me in this regards.

With Regards,

---
