Dear all,

due to the fact that no further ideas have been raised, I would suggest to start here the poll on the name of the PWA software.

At the last EVO meeting we decided to have two stages of voting.

In the first stage - it will start right now until next Thursday - we will vote for three out of six candidates. Then in the second stage, we will finally vote for the best name of the remaining three candidates.

Best regards,
Bertram.

PAWIAN : PArTial Wave Interactive ANalysis software

SPINOR : Spin Parity INvestigatOR

SPEAR: SpinParityExcitationAnalysisofResonances

SPIRAL: SpinParityInteractiveResonanceAnaLysis

CAFE = Complex Analysis Fitting Environment

P-WAVE = Partial Wave Analysis Versatile Environment

Name for the PANDA PWA software(total votes: 7)

PAWIAN 3/(43%)

SPINOR 2/(29%)

SPEAR 2/(29%)

SPIRAL 0/(0%)

CAFE 0/(0%)

P-WAVE 0/(0%)
