Subject: Permission deny in lxetch64

Dear all,

After login at lxetch64, I could not access any fairsoft, for instance
the permission of /misc/cbmsoft//misc/cbmsoft/Etch64/jan10/fairsoft/* is simply denied in shell
script!

But if you login directly to lxi019, one can access it!
What is happening in ssh node.

Does anyone have same problem?

Cheers,
Donghee
