Dear all,

I propose to start the pandaroot meetings again, albeit it holiday season, since there are many items to discuss. The next meeting will take place next week Friday, the 23rd, at 14:00 hours, of course via EVO. Topics for the upcoming meeting are:

- 1) General announcements
- 2) User problems - e.g. those users who encountered some problems or would like to show something relevant for the developments, please send me an email prior to the meeting.
- 3) Tutorial for next CM?
- 4) Time-ordered simulations - Tobias/Mohammad +
experts data flow of each subdetector
- 5) A.O.B.

Hope to hear you then....

Greets,

Johan.
