Subject: Re: Error while compiling trunk version of cbmroot
Posted by Arun Prakash on Thu, 30 Dec 2010 08:03:28 GMT

Dear Florian,

Thanks for your suggestion. I could solve the problem. Infact I was using external package (fairsoft jul09) . But when i installed jan 10 and then compiled the trunk version of cbmroot then i didnt get any error except for the shadowing.

Best regards
Arun Prakash
