Hi all,

I was trying to do make pandaroot by editing CMakeLists.txt to add lmd macro by adding line,
add_subdirectory (lmd)

but make gives following error,

.....

```
/Users/Manoj/fairroot/pandaroot/lmd/LmdTrack/PndLmdTrackFinderTask.cxx: In member function 'virtual void PndLmdTrackFinderTask::Exec(const Option_t*)':
```

```
/Users/Manoj/fairroot/pandaroot/lmd/LmdTrack/PndLmdTrackFinderTask.cxx:1 35: error: 'fabs' was not declared in this scope
```

```
/Users/Manoj/fairroot/pandaroot/lmd/LmdTrack/PndLmdTrackFinderTask.cxx:1 71: error: 'fabs' was not declared in this scope
```

```
make[2]: *** [lmd/CMakeFiles/LmdTrk.dir/LmdTrack/PndLmdTrackFinderTask.cxx.o] Error 1
```

```
make[1]: *** [lmd/CMakeFiles/LmdTrk.dir/all] Error 2
```

```
make: *** [all] Error 2
```

.....

can someone please suggest the solution to fix this bug.
my system is mac 10.6.6, 64bits, gcc-4.2
