Hi Olaf,

If you want it a little bit more precisely APD geometry is included in
macro/emc/dedicated/sim_emc_apd.C

```
FairDetector *EmcApd = new PndEmcApd("APD",kTRUE);  
EmcApd->SetGeometryFileName("apd_module12.dat");  
fRun->AddModule(EmcApd);
```

But as Stefano have mentioned it already it exists for barrel only.
