Dear all,

running the reco\_stt\_evt macro in /macro/run/tdrct/ I have the same error that Dima reported here [http://forum.gsi.de/index.php?t=rview&goto=11788#msg\\_11788](http://forum.gsi.de/index.php?t=rview&goto=11788#msg_11788) using the may11 package.

So we are not able to test the new packages...  
Hope that experts can solve the problem

Thank you  
Elisa
