Subject: Re: new release on the Grid Posted by Johan Messchendorp on Sat, 18 Jun 2011 20:03:18 GMT View Forum Message <> Reply to Message

Hi,

Indeed, the data that are now produced on the Grid faces the same problems. There are a large number of jobs (30-40%) that do not pass the validation, e.g. crashed during reconstruction. In any case, we have now about 100k of signal events per physics channel produced on the Grid that didn't crash (only STT).

Greets,

Johan.
