Hi Johannes,

Quote:0xb0294edd in FairGeanePro::Propagate (this=0x1a414bf0, TParam=0x1a414960, TEnd=0x1a414e98, PDG=-211)

at /nfs/hicran/project/panda/SIM/jrauch/clean/geane/FairGeanePro.cxx:144

I looked in the line 144 in FairGeanePro.cxx but it is a white line for me, are you using an up-to-date geane? Did you modified it... or maybe the source of the crash is elsewhere and crashes here by chance.

Could you please check whether your geane and trackbase are updated and not modified locally?

Cheers,

Lia.
