Hallo TPC experts,

In your last commit (13159) it seems that you forget to commit the header file
PndTpcClusterFinderTask.h

The TPC code do not compile any more:

```
Quote:pandaroot/tpc/PndTpcClusterFinderTask.cxx: In constructor  
'PndTpcClusterFinderTask::PndTpcClusterFinderTask()':  
pandaroot/tpc/PndTpcClusterFinderTask.cxx:50: error: class  
'PndTpcClusterFinderTask' does not have any field named 'fSamplePersistence'  
make[2]: *** [tpc/CMakeFiles/Tpc.dir/PndTpcClusterFinderTask.cxx.o] Error 1
```

Cheers,

Mohammad
