Subject: trouble during copy a file
Posted by donghee on Wed, 31 Aug 2011 13:23:30 GMT

Hi grid experts,

I have very small trouble....
Simply cannot use a "get" to download the files to my local system.
The files belong to pbarprod.

I want to copy a mixed event for tdr campaign
 find -c test-run1002_900_1 /panda/user/p/pbarprod/tdr11/output/mix/psi3770/run1002_900/1/
*

Then try
get test-run1002_900_1 /tmp/test-run1002_900_1

But got the message
Quote:
Aug 31 14:40:33 info Connecting to Authen...
Aug 31 14:40:33 info Access [envelope] creation failed: Not possible to get file info for file
[getPFNforReadOrDeleteAccess error]. File info is not correct or you don't have access on
certain SEs.
Aug 31 14:40:33 info Access [envelope] creation failed: Not possible to get file info for file
[getPFNforReadOrDeleteAccess error]. File info is not correct or you don't have access on
certain SEs.
Aug 31 14:40:33 info Cannot get access to test-run1002_600_1

not allowed?

Best wishes,
Donghee
