Mohammad Al-Turany wrote on Sun, 02 October 2011 23:33HI,

I just run the macros you mentioned and it works for me! looking at your output it seems that the output file of the simulation was not closed properly. Did the run_sim_stt_evt.C exit without errors?

Mohammad

Hallo,
please find in the attachment the log file of the
run_sim_stt_evt.C

Also included there is the complete log file of the

run_digi_stt_evt.C

Cheers Gianluigi
