Hi Stefano,

In my understanding the problem was not with selection in analysis but with cut used internally in PndSttMvdTracking.cxx

You can see inside PndSttMvdTracking.cxx now:

```
const Double_t MvdCut=0.3;
```

insead of

```
const Double_t MvdCut=0.8;
```

So the data should be reproduced at least from the reconstruction level (and I suppose for all the channels).

Dima
