Dear all,

So far I accounted for the following contributions for the upcoming PANDA collaboration meeting...

- 1 Florian Uhlig, "Update FAIRROOT"
- 2 Radek Karabowicz, "PROOF integration in fairroot"
- 3 Kilian Schwarz, "GSI/Grid computing infrastructure"
- 4 Dalibor Djukanovic, "HIMster cluster in Mainz"
- 5 Tobias Stockmanns, "Time-based framework"
- 6 Florian Feldbauer, "Environmental database"
- 7 Gianluigi Boca, "Update and perspectives of the tracking software"
- 8 Lia Lavezzi, "Secondary track finder and lambda reconstruction"
- 9 Hossein Moeini, "Update forward endcap EMC"
- 10 Alica Sanchez, "SciTil detector in pandaroot"
- 11 Gosia Sudol, "PID studies in pandaroot"

There is still room for additional contributions. But please inform me, not later than by the end of this week...

Greets,

Johan.
