Hi,

i again have the problem that i deleted all my files but fquota_list still states

```
-----  
      user      nbFiles      totalSize(M)  
-----  
[0001. ]      pitka  90953/100000      525279.5569/559154.5105  
-----
```

Is there some solution to this?

Best regards and thanks a lot in advance

Andreas
