Hi Maria,
in theory, in pandaroot/CMakeLists.txt:

```
If(TEvePath)
#find_package(OpenGL)
#If (OPENGL_FOUND AND OPENGL_GLU_FOUND)
  Message("Found TEve, so the eventdisplay will be compiled.")
  add_subdirectory(eventdisplay)
  add_subdirectory(PndEventdisplay)
#EndIf (OPENGL_FOUND AND OPENGL_GLU_FOUND)
EndIf(TEvePath)
```

So maybe the system does not find OPENGL -> it does not compile event display? When you do cmake, does the "Fount TEve" message appear?
