Dear all,

as we agreed on the last evo meeting I attach plots with E/p vs p together with EMC energy and momentum.

pandaroot version = nov11  
external packages = may11

emc\_raw\_lab\_3.3\_0.0e.eps - EMC energy raw  
mom\_lab\_3.3\_0.0e.eps - momentum  
p\_versus\_ep\_RAW\_3.3\_0.0e.eps - E/p vs p (EMC energy raw)

Cheers,  
Dmitry
