Hi Marius,

I did several changes in the Analysis tools. However, as far as I examined it in the svn after your call here, I did no changes involving the PndEventReader.

However, I incremented the class version number of PndPidProbability, because this class changed slightly. Let us know if that did the trick.

I suggest you have a look on PndAnalysis instead of PndEventReader. The usage is almost the same.

Cheers.

Ralf
