Subject: Re: improvement of DPM

Posted by Mohammad Al-Turany on Wed, 08 Feb 2012 11:14:40 GMT

Hallo Aida,

After your changes the DpmEvtGen was not compiling anymore:

http://cdash.gsi.de/CDash/viewUpdate.php?buildid=823

this because you change the name of a subroutine from:

  subroutine DPM_GEN(Pluto, Seed)

To:

  subroutine DPMGEN(Pluto, Seed)

Was there any reason for that? I change it back now!

regards,

Mohammad
