Hallo Raghav,

It took some time but I found it! in your CMakeList.txt in the DircDet you wrote:

```
Quote:set(FAIRDIRCDET_LINKDEF FairDircDetLinkDef.h)
set(FAIRDIRCDET_DICTIONARY ${CMAKE_CURRENT_BINARY_DIR}/FairDict.cxx)
```

So your detector dictionary is called FairDict.cxx and you use FairBase project which also define the FairDict but of course does not have FairDictDet. please change the lines to :

```
Quote:set(FAIRDIRCDET_LINKDEF FairDircDetLinkDef.h)
set(FAIRDIRCDET_DICTIONARY ${CMAKE_CURRENT_BINARY_DIR}/FairDircDict.cxx)
```

This should solve this problem.

regards,

Mohammad
