Subject: Re: Creating a new Detector out of 2 or more detectors Posted by Mohammad Al-Turany on Tue, 06 Mar 2012 14:36:07 GMT View Forum Message <> Reply to Message

Hallo Raghav,

It took some time but I found it! in your CMakeList.txt in the DircDet you wrote:

Quote:set(FAIRDIRCDET_LINKDEF FairDircDetLinkDef.h) set(FAIRDIRCDET_DICTIONARY \${CMAKE_CURRENT_BINARY_DIR}/FairDict.cxx)

So your detector dictionary is called FairDict.cxx and you use FairBase project which also define the FairDict but of course does not have FairDictDet. please change the lines to :

Quote:set(FAIRDIRCDET_LINKDEF FairDircDetLinkDef.h) set(FAIRDIRCDET_DICTIONARY \${CMAKE_CURRENT_BINARY_DIR}/FairDircDict.cxx)

This should solve this problem.

regards,

Mohammad
