Subject: Re: Creating a new Detector out of 2 or more detectors Posted by Raghav Kunnawalkam on Thu, 08 Mar 2012 16:39:56 GMT View Forum Message <> Reply to Message

Update:

Hi Mohammad

I just solved the problem. It was really simple, inside my FairDircDetGeo.cxx files, i have set the name of the module to be dircdet where as i was defining the module name inside the geometry file as dirc.

So it did not build it.

Now i can go ahead and build them all. Thanks again for your help Cheers Raghav
