Subject: Re: segmentation violation in pid macro
Posted by StefanoSpataro on Thu, 15 Mar 2012 11:48:23 GMT

Could you please copy the log? Because I have tried yesterday and it seemed to work.
The other point is if your reco macro has crashed at the end and therefore the pid crash at the init. If this is the case, I would suggest to try root without -b or maybe -q, because it seems this is recently providing some problems.
