Subject: Re: segmentation violation in reco macro -- GEANT related? Posted by MartinJGaluska on Fri, 15 Jun 2012 17:18:01 GMT View Forum Message <> Reply to Message

nEvents is set to 0.

I believed that represents "run until you reach the last event" (at least that is what fRun does when I call it with fRun->Run(0, nEvents); with nEvents set to 0).
