Hi, I'm afraid to say the script did not install without hitch for me.

```
*** Compiling root .....
*** Applying patch needed for Ubuntu 12.04
Copied rootconfig.sh .....
Configure Root .....
*** ERROR: root could not be created.
```

Stefano, are you on x86_64?

I'll see if I can get it working by ineptly fiddling with the root_config.patch tomorrow.
