Subject: Re: New pandaroot release july12 Posted by Mohammad Al-Turany on Wed, 11 Jul 2012 07:27:43 GMT View Forum Message <> Reply to Message

Hi,

Sorry but I cannot reproduce this problem! I just downloaded a fresh copy of the july12 release compile it and run the macro "run\_sim\_stt\_evt.C", close the root session and open the file again, all works fine!

could it be that you have a rootlogon.C in your home directory?

regards,

Mohammad
