

Dear all,

I'm working with july12 version.
I'm into the directory pandaroot/macro/pid
and I'm running the macros:

```
run_sim_sttcombi_evtgen.C
run_digi_sttcombi.C
run_reco_sttcombi.C
run_pid_stt.C
```

loading the file that you can read in macro/run/tdrct/npipi/pipi.dec
in order to reconstruct two pions decay channel.

Everything is fine, no crashes, but when I run the macro run_pid_stt.C I have the message that you can see below.
Is it normal?

When I tried to run my analysis macro macro/run/tdrct/npipi/run_ana_invariantmass_2pi_stt.C I had empty histograms.
This is the reasons why I'm asking if this message that I got running the pid macro is normal or not.

Thanks in advance to everybody.

Elisa
