Subject: Re: segmentation violation in FairPrimaryGenerator Posted by Anastasia Karavdina on Mon, 01 Oct 2012 07:43:59 GMT View Forum Message <> Reply to Message

Trunk:17198 It's macro/Imd/runLumi0DPMbkg.C It's needed DPM input as a root file. Also one need to run macro/Imd/FirstRun to produce lumi geometry. I'm running it on HIMster, so OS: Scientific Linux release 6.0 (Carbon) x86_64

PS: seems I don't have this problem with Box Generator
