---

Hi..all

I have done simulation and digitization by taking lambda-lambdabar chennal for  $10^5$  events.Both the process taking 24 hours and 16 hours respectively.Now I have proceed for reconstruction,somewhat it is taking very long time.already two days are gone,still it is on event no. 1035.

Is it happening in my case only or essentially it will take more time?

The output on the terminal looks like as:-

```

Also I have attached my reco macro here.  
Plz suggest me.

Thanks & Regards
