Hi Lia and Stefano,

Thankyou very much for your quick reply.

Same thing is happening while I am simulating eta_c->phi phi
chennal in one of my another system.

I have used the trunk version of pandaroot copied from the following:-
svn co https://subversion.gsi.de/fairroot/pandaroot/trunk pandaroot

Is it latest trunk version?

Asking becoz there is onother one trunk version with some rivision X,that I could not copy from
svn.somehow it says   svn: Syntax error in revision argument 'X'

svn co https://subversion.gsi.de/fairroot/pandaroot/trunk pandaroot -r X

About MVD geometry that I have to cheak again.

Regards
