Hi,

I tried to compile it. It seems to freeze with

Checking for GNU Make:

```
/usr/bin/which: no dpkg-architecture in  
(/home/promme/bin/fairsoft/tools/root/bin:/usr/local/bin:/usr/bin:/bin:/  
usr/local/sbin:/usr/sbin:/sbin:/home/promme/bin:/home/promme/bin/fairsof  
t/transport/geant4/bin:/home/promme/bin:/home/promme/bin/pandaroot/./bu  
ildPanda/bin:/home/promme/bin/fairsoft/tools/root/bin:/home/promme/bin/r  
ootpwa/trunk/build/bin)
```

I'm using:

```
g++ --version  
g++ (GCC) 4.6.1 20110908 (Red Hat 4.6.1-9)
```

Or shall I wait longer than 30 min. Inet traffic seems to be low (no file transfer) and CPU is also sleeping.
