Hello C++ fighters,

this is the place to exchange experience, know how, and discuss problems. I hope it will be used a lot by the participants of the C++ lectures beginning now (March 17th, to be exact).

More about the lectures can be found on

<http://wiki.gsi.de/cgi-bin/twiki/view/Cplusplus/WebHome>

But the forum is not reserved for the lectures.

see you soon, Pat Boon!

Hans Essel
