Hello C++ fighters,
this is the place to exchange experience, know how, and discuss problems. I hope it will be
used a lot by the participants of the C++ lectures beginning now (March 17th, to be exact).
More about the lectures can be found on
http://wiki.gsi.de/cgi-bin/twiki/view/Cplusplus/WebHome
But the forum is not reserved for the lectures.
see you soon, Pat Boon!
