Subject: [FIXED] smth is missing for FairRunAnaProof and FairTrackPar?

Posted by Anastasia Karavdina on Tue, 07 May 2013 13:07:20 GMT

Dear all,
I try to compile macro for lmd and got following errors, which are independent from lmd macros:

../../lib/libBase.so.0.0.0: undefined reference to `FairRunAnaProof::RunOneEvent(long long)'
../../lib/libPndData.so.0.0.0: undefined reference to `FairTrackPar::FairTrackPar(FairTrackPar const&)'
../../lib/libBase.so.0.0.0: undefined reference to `FairRunAnaProof::FairRunAnaProof(char const*)'

FairRunAnaProof I don't see in any CMakeList. Is it ok?
For FairTrackPar I have no idea what can be wrong.
Can experts have a look at those classes, please?

Best regards,
Anastasia.
