
Subject: [FIXED] method missing in RhoCandidate

Hi!

I tried to compile macro/lmd and got following error:

```
../../lib/libRho.so.0.0.0: undefined reference to `RhoCandidate::Daughter(int) const'
```

My guess this method is missing in cxx file.
Can expert check it, please?

To reproduce this, please, add following line in \$PANDAROOT/macro/CMakeLists.txt:

```
add_subdirectory(lmd)
```

Best regards,
Anastasia.
