Subject: Re: PndAnalysis::McTruthMatch always returns false Posted by Simone Esch on Thu, 18 Jul 2013 07:23:13 GMT View Forum Message <> Reply to Message

Hi Klaus,

yes I modified my own version.

Before McTruthMatch found no single event which reached matchlevel 2, now there are ~40% of events with matchlevel 2 for Lambdas.

Is there any other way to control if the McTruthMatch works properly? I expect to have more events with Lambdas.

Best Regards

Simone
