Hi Lu,

as mentioned in my previous posting, I followed the instruction found in the wiki:

<http://panda-wiki.gsi.de/cgi-bin/view/Computing/PandaRootTutApr2013>

where I read:

```
> svn co https://subversion.gsi.de/fairroot/pandaroot/trunk
```

So the version is of course the one provided by default:

```
- Found Subversion: /usr/bin/svn (found version "1.6.13")
```

```
-- FairRoot Revision - 20968 Branch - https://subversion.gsi.de/fairroot/pandaroot/trunk
```

cheers,

Elisabetta
