Dear Collaborators,
please if you have contributions to this Tracking Session in Bochum
let me know. I think this is a good time to start making an agenda

cheers!

Gianluigi

Stefano Spataro wrote on Wed, 07 August 2013 18:26Following the discussion of the lst
SeeVogh meeting, we could use the "software tracking" session (2h) for the tracking
presentations, chaired by Gianluigi.
After I could ask for 4 hours of computing session, let's say 2 hours for talks and 2 hours for
the closed tracking discussion.

If you agree, I will make such proposal to Torsten.
