The candidate should have the following data members:

virtual Float_t	GetElectronPidLH() const=0;
virtual Float_t	GetMuonPidLH() const=0;
virtual Float_t	GetPionPidLH() const=0;
virtual Float_t	GetKaonPidLH() const=0;
virtual Float_t	GetProtonPidLH() const=0;

In theory they should be filled by the FillList. I don't know if this works.
